

Corporation/Facilities

Corporate Background - in March on 2011, Len & Darlene Brady purchased Vancouver Island Powder Coating 1997 Ltd in the Cedar area of south Nanaimo, B.C. We hand changed the name in the process and it is now operating as **Brady's Powder Coating Ltd.** Our manager **Jason** and our secretary **Gwen**, have stayed on with us after the purchase & with their years of experience in the business, they are more than ready to help you.

Goals- our goal is to provide consistent, top quality work and customer service, at a fair price. As a custom job shop, we are coating a variety of items each day.

Facilities-Our custom shop is located in the Cedar area of south Nanaimo. We have 2 coating lines in a batch format in our 5200 sqft. Shop. This allows us to accommodate everything from one small piece of robotics to 2000 lb pipe spools for the Municipal Water Market.

For pretreatment we offer sandblasting, bead blasting and a 3 stage hot iron phosphate immersion system, capable of handling items up to 26 ft long x 7ft wide x 7ft high. Higher items may be accommodated but it is a function of overall configuration.

We run 2 powder4 booths with 2 ovens. Our main oven is a natural gas fired, 1.5 mil. btu. Convection oven, 27 ft. long x 8 ft. high x 8 ft. wide. With the second smaller oven for smaller jobs.

Brady's Powder Coating Ltd 1607 Woobank Rd, Nanaimo B.C. 1-866-882-3088
